EDUCATION

BS in Computer Science, University of Maryland, May 2025

GPA: 3.7/4.0 | Relevant Courses: Software Engineering, Web Programming, Database Systems

SKILLS

Languages: C#, ASP.NET, JavaScript, SQL

Frameworks: .NET Core, MVC, Entity Framework, AngularJS

Tools: Visual Studio, Git, Docker, Microsoft SQL Server

PROJECTS

HealthPortal Web App - Developed a secure patient portal for a healthcare provider

- Built front-end in AngularJS and back-end in ASP.NET MVC
- Integrated SQL Server database and implemented stored procedures
- Created SSRS reports for appointment tracking and billing summaries

E-Commerce Dashboard - Built a .NET Core dashboard for inventory and sales analytics

- Designed SQL schema and optimized queries
- Used AJAX for dynamic UI updates
- Deployed using IIS and Windows Server

EXPERIENCE

Software Developer Intern, MedTech Solutions, Summer 2024

- Developed .NET APIs to manage patient data
- Built SSIS packages to automate ETL workflows
- Participated in Agile sprints and peer code reviews

LEADERSHIP

Vice President, Developer's Guild - Led peer mentoring and weekly tech talks on .NET technologies
